Precipitation probability					
20%	70%	60%	40%	30%	30%

Forecast for Monday 18 Oct 2021

Weather: Largely dry towards dawn with cloud breaking to bring some limited brighter spells, chiefly to the east. Cloud thickening and lowering through the morning bringing periods of rain which may be heavy at times, this the followed by patchy drizzle as cloud contines to thicken and lower. Remaining dull with patchy rain and drizzle during the evening.

Chance of cloud free mountain/hill tops above 600m: Initially 30% in west and 70% in east, later virtually nil in west and 20% in east.

Visibility: Moderate or poor in rain and drizzle, very poor in hill fog which will be focused across the west, particularly later in the day as bases become extensive from 450-600m.
